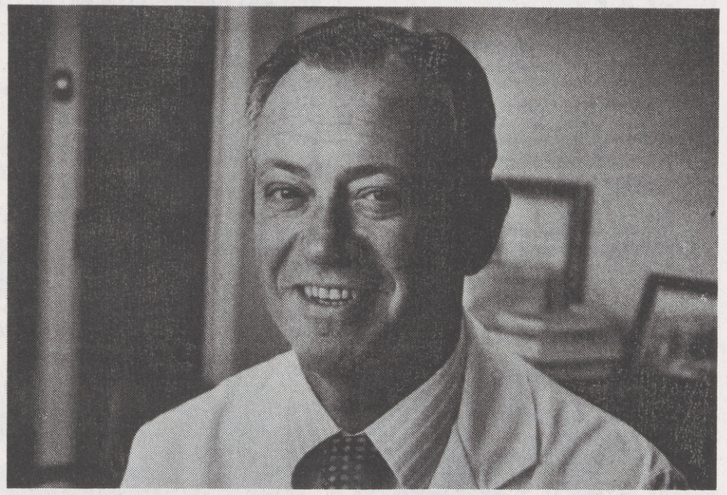
RUSH — TIME DATED **ADDRESS CORRECTION REQUESTED**

TODAY & TOMORROW



Julius R. Krevans, MD, dean of the School of Medicine, has been appointed the fifth chancellor of UCSF, it was announced by UC President David S. Saxon.

The appointment was recommended by Saxon and was made by the UC Regents at their meeting in S.F. on Friday, January 22. Krevans will succeed Francis A. Sooy, MD, who announced last summer that he would resign effective July 1, 1982, after serving 10 years as chancellor, in order to devote more time to his medical practice.

In announcing the appointment, Saxon said "Dr. Krevans came to UC-San Francisco 10 years ago as dean of the School of Medicine. He joined the school at a critical point in its history, providing strong leadership at a time when recruitment of minority and women students needed attention, and when programs to reach out to the local community needed strengthening. Under his stewardship, the school has become recognized as preeminent in teaching, research, clinical care and public service.

"Dr. Krevans has additionally played an important role nationally in helping to develop public policy in medical education and the other health sciences, as well as in the advance of biomedical research. He has also managed to keep in touch with the realities of the world into which a medical school sends its students to practice," Saxon said.

Krevans served as chair of the Association of American Medical Colleges, 1980-81. In addition, he has served on the boards and committees of numerous national foundations, government agencies and organizations, including the National Academy of Science Institute of Medicine.

Krevans earned both his AB and MD degrees from New York University, where he was named Alumnus of the Year in 1978. He went to John Hopkins University School of Medicine, 1940-1971 where he ended as dean for academic affairs. While at Hopkins, Krevans also was director of the Blood Bank, and made significant contributions in the field of hematology including service with a group that developed the immunization procedure for Rh mothers.

Lewis Thomas, MD, will deliver the Fifth Chauncey D. Leake Lecture on Thursday, February 4 in Cole Hall from 3 to 4:30 p.m. He will speak on "Biological Recognition of Self." Thomas, who has been called "the most listened-to man in medicine," is president and chief executive officer of the Memorial Sloan-Kettering Cancer Center, in New York.

Thomas also will present Medicine Grand Rounds with School of Medicine Dean and Chancellor-designate Julius R. Krevans the preceding day in Cole Hall at 10:30 a.m. when their topic will be "Medical Education for the 21st Century."

Author of the popular book, *The Lives of a Cell*, for which he won the National Book Award in Arts and Letters, Thomas is well-known not only as a physician and researcher, but also as a writer and philosopher.

The lectureship honors the late Chauncey D. Leake, the internationally eminent UCSF pharmacologist who died in 1978 at the age of 81. The lectureship was established in 1977.

NEWS BRIEFS

UCSF has been assigned 8 low-interest faculty home mortgages (not to exceed $150,000 each) under the University of California program. They will cover the period January 1, 1982 to January 31, 1983. Applications must be in by Wednesday, February 10.

Faculty interested in obtaining these low-cost home mortgages should submit an application with a current curriculum vitae to their department chairs.

For further information on eligibility and procedures, contact Diane Dillon at x1881. For further information on specific procedures with the bank, contact Robert LaPointe at x1131.

Five UCSF faculty members have been elected to membership as fellows of the American Association for the Advancement of Science (AAAS). They are School of Medicine Dean and Chancellor-designate Julius R. Krevans, MD; Rudi Schmid, MD, professor of Medicine, chief of Gastroenterology and director of the Liver Center; John W. Severinghaus, MD, professor of Anesthesia and the Cardiovascular Research Institute; Edward A. Smuckler, MD, professor and chair of Pathology; and John A. Starkweather, PhD, professor of Medical Psychology and Psychiatry.

A fellow of the AAAS is honored as "a member whose efforts on behalf of the advancement of sciences or its applications are scientifically or socially distinguished."

The Hospital Auxiliary presents its third limerick in a series of five:

When you study Medes, Persians,
Hellenes,
You may read about Cleas and Justines;
Of a port of importance -
Or Arabia's Lawrence -
But we'll not spill a fourth of the beans.

Guess all five limericks (two more to appear in future issues of *Today & Tomorrow*) and win a free ticket to the private benefit showing of "The Search for Alexander" to be held at the De Young Museum on Thursday, March 4.

Door prizes also are available to all those who purchase tickets, including two round trip tickets to Hawaii and a week for two at the Whaler Condominium, Maui; a weekend for two at the Pacific Plaza Hotel and dinner for two at Donatello; two round trip tickets to Reno; and a Zenith 19 inch color TV.

Benefit tickets at $15 each may be purchased at the Auxiliary Office, Room M 180 B (next to Moffitt cashier). For further information contact Eileen Puppo, x4906.

Harold C. Hodge, professor of Pharmacology and Oral Biology, Schools of Medicine and Dentistry, has won the prestigious Fauchard Gold Medal from the Pierre Fauchard Academy.

The medal is given in recognition of outstanding contributions to the field of dentistry. The academy is a service organization of dentists whose members are selected for their dedication to the arts and sciences of dentistry, and for their contribution to its professional literature.

Hodge, who came to UCSF in 1970, following a 40-year career at the University of Rochester, is the recipient of several other honors and awards, including the first Toxicology Education Award from the Forum for Advancement of Toxicology, and the H. Tendley Dean Dental Memorial Award of the International Association for Dental Research. He also was made an honorary fellow in the American College of Clinical Pharmacology in 1977.

Current perspectives in head and neck cancer will be presented at a symposium Saturday, February 6 at the Hyatt Anaheim Hotel in Anaheim.

Several speakers, including Elliot Strong, professor of Surgery at Cornell and chief of Head and Neck Surgery at Memorial Sloan-Kettering Medical Center, N.Y., will present up-to-date information on current attitudes on the management of head and neck cancer from the viewpoints of surgical, radiation and medical oncologists.

The program is sponsored by the UC Cancer Research Coordinating Committee and the UC-Irvine College of Medicine clinical oncology program. There is no registration fee. For further information call (714) 833-5476.

Proposals are now being accepted for funding of intercampus activities projects. Primary emphasis of this fund is to support instructional activities including: operating costs of experimental phase of the program, one-time activities such as faculty conferences and visits, start-up costs of van, bus, teaching research equipment, or planning activities.

Deadline date for faculty to submit applications is Friday, February 12. Proposals should be submitted to the Academic Vice Chancellor's Office, S115, with a clear description of the proposed project, its anticipated academic benefits, a detailed budget, and the number of faculty and students to participate. For further information call x1881.

The School of Nursing's Continuing Education Unit will be phased out by April of this year, due to budgetary cuts and changes in the field of continuing education, according to Dean Margretta Styles.

The unit began in 1956 under the direction of Alice Ingmire and developed into a significant operation, bringing much distinction to the school.

After March, the school will establish an office for special programs. Maura Carroll will remain coordinator of these functions, which include post-doctoral scholars, special events within the school and certain faculty development activities.

A distinguished group of 22 UCSF and visiting faculty will present new research on mental, behavioral and physical processes and disease at the first of an important new bi-annual series of symposia on "Mind and Medicine," to be held Saturday and Sunday, February 13 and 14 at the Sheraton Palace Hotel, S.F.

A reduced fee is being offered to all UCSF faculty, staff and trainees: $150 faculty, clinical faculty and staff; $50 full-time postdoctoral trainees; $25 full-time predoctoral trainees. For further information contact Aveleen Blumenstock at x77-554.

Entitled "Emotions in Health and Illness: Foundations of Clinical Practice," the symposium will present the most current research and theory in the interdisciplinary field of behavioral medicine. Topics will include the role of endorphins, cortisol and other substances in physical and mental disorders, and the effects of stress and coping behaviors.

The symposium is sponsored by the Department of Psychiatry and is directed by Leonard Zegans, MD, Lydia Temoshok, PhD, and Craig Van Dyke, MD.

The health consequences of nuclear weapons and war and the impossibility of a medical response will be the topic of an educational forum and speakers' training session on Saturday, February 6, at the California Nurses' Association's S.F. regional headquarters, 2601 Mission St., 9:30 a.m. to 4 p.m.

The training session is sponsored by Health Network Against Nuclear War and led by Stan Nudelman, MD, associate clinical professor, Medicine, who also is spokesman for Physicians for Social Responsibility. All nurses, health workers, and students in the field are invited to attend.

The session will feature recent films on the disaster facing any community if a bomb falls, and discussion of nuclear weapons and war.

For further information contact the Health Network Against Nuclear War at 1855 Folsom Street or call 824-7780.

Truck fumes and noise can be expected as workmen continue construction of Long Hospital.

Heavy jackhammering and chipping will occur for some time in order to complete the leveling of floors between Long and Moffitt hospitals. Presently construction crews work from 3:30 p.m. to 11 p.m. They stop jackhammering at 8 p.m. when the sound reaches patient floors.

On Monday, February 1, the men's room at M 196 (west end of Moffitt lobby) will be closed for at least a week. During this interim period, M 197 will be opened as a men's room and M 131 A (near the Emergency waiting room) will be converted to a men only bathroom.

Also beginning February 1 and lasting at least one month, the 8th floor solarium will be closed in order to construct an access corridor between the two hospitals. For further information call x3283.

A memorial service for J. Englebert Dunphy is scheduled for Wednesday, April 14 in Cole Hall at 4 p.m.

Dunphy, who died on Christmas Day, was an internationally known surgeon and professor emeritus of Surgery at UCSF. He came to UCSF in 1964 as professor and chair of the Department of Surgery. He was responsible for developing a strong, integrated clinical surgical program in the School of Medicine, and established the Trauma Center and Trauma Research Program at SFGH.

Anyone interested in making contributions in honor of Dr. Dunphy should send them to the Dunphy Memorial Fund, c/o Department of Surgery, M 593. For further information contact Joyce Nachtrieb at x1236.

Recent advances in the understanding of cholesterol metabolism, the role of diet in heart disease and diagnosis and treatment of hyperlipidemia (elevated blood cholesterol and fatty acids) will be discussed at a symposium on Thursday, February 18.

Co-sponsored by the Gladstone Foundation Laboratories for Cardiovascular Disease and the S.F. Chapter of the American Heart Association, the symposium is entitled "Coronary Artery Heart Disease: Hyperlipidemia and Its Management," and will be held at the Mark Hopkins Hotel, S.F., from 12:30 to 5 p.m.

Designed for practicing physicians, the symposium features the following experts: Daniel Steinberg, MD, UC-San Diego; Henry Blackburn, MD, School of Public Health, University of Minnesota; Robert W. Maley, MD, PhD, director of the Gladstone Foundation and UCSF professor of Pathology and Medicine; Virgil W. Brown, MD, Mt. Sinai School of Medicine, N.Y.; and Scott Grundy, MD, PhD, Center of Human Nutrition, University of Texas, Dallas. Program co-chairs are Mahley and Thomas P. Bersot, MD, senior scientist, Gladstone Foundation and UCSF assistant professor of Medicine.

To register contact Kari Olila at 433-2273.

IN MEMORIAM

Eugenia Helma Waechter, acting chair, Department of Family Health Care Nursing, School of Nursing. She was in the process of completing the 10th edition of her authoritative text, *Nursing Care of Children,* and was involved in a federally funded research project, "Living with Childhood Cancer." Throughout her distinguished career, her research interest was in the area of chronic and life-threatening illnesses in children. Her research helped change the nature of nursing and family care of fatally ill children and paved the way for the current open attitudes toward death and dying. In 1978 she was elected a fellow of the American Academy of Nursing and is listed in the 1981-82 edition of *Who's Who of American Women.*

Wilma Buckman, a faculty member for 25 years in the Department of Pediatrics. Retired since 1974, she held the position of associate clinical professor, Pediatrics and Social Work, and taught in the UCSF Child Study Unit. She co-authored in 1979 the major text, *The Family is the Patient*, an approach to behavioral pediatrics. Contributions in memory of Ms. Buckman can be made to the Wilma Buckman Memorial Fund, for the Child Study Unit, Department of Pediatrics.

UCSF Word Processing Manual — A Guide to Evaluating Alternatives, is a free document available to all campus managers from Ann Gallego, Purchasing Department. Produced by the Word Processing Advisory Group, this material will enable managers to evaluate alternative word processing systems. For further information call x5761.

CARE, the Cultural Awareness and Race Relations Education Program, is holding a series of workshops beginning Wednesday, February 3.

The workshops will deal with cultural awareness and how to improve effectiveness in managing multi-cultural employees. In addition, the series will explore and eliminate current stereotypes about other cultures and will assist participants in rediscovering their own ethnic identities as a source of personal pride. For application information contact Development and Training at x4032.
